

**GET IT  
CLEAN  
KEEP IT  
CLEAN**

It's what  
every hot tub  
deserves...

It's called the  
Hot Tub **SERUM** Total  
Clean WaterCare  
System.

Now there's a hot tub life saver that is designed to work as a complete watercare system. It totally cleans your hot tub pipes and plumbing and keeps the water clean, safe and worry-free for up to six months! Hot Tub Serum is a two step watercare system that is more efficient and more effective than anything in the marketplace today.

- **Hot Tub SERUM** Total Clean System does 4 tasks it's a Purge product, Surface Cleaner, Filter Cleaner and a 6 Month Maintenance product!
- **Hot Tub SERUM** Water Care has been proven to be more effective than other leading Water Care products and improves your hot tub performance and water quality over time.

HOT TUB  
**SERUM**  
Total  
Clean  
watercare system

# HOT TUB SERUM<sup>®</sup>

## Advantages

### STEP 1: Hot Tub SERUM Total Cleanse:

1. Concentrated Gel that effectively helps in the removal and displacement of biofilm in hot tub plumbing.
2. Total Cleanse cleans the plumbing quickly, usually in under 24 minutes, **NOT** 24 hours.
3. Total Cleanse formula has been tested at the Center for Biofilm Engineering (CBE) and rated superior to many other purge products.
4. Total Cleanse is the first step to take for effective and easy maintenance protocols that result in a healthy soaking environment.

### STEP 2: Hot Tub SERUM Total Maintenance:

1. A weekly minimum dose helps maintain cleaner plumbing/jet infrastructure.
2. 1 ounce per 100 gallons weekly (easy, effective & inexpensive).
3. Aids in the prevention and re-occurrence of biofilm slime formations inside plumbing.
4. Super clarifies your water to HD standards.
5. EPA registered as an effective algae-cide and bio-cide that effectively reduces bacteria formation.
6. Extends cover life as anti-bacterial formulation eliminates mold and other waterborne bacteria.
7. Water looks, smells and feels better since the Serum Maintenance is on duty 24/7.
8. Serum Total Maintenance is pH buffered. No huge fluctuations that cause water maintenance issues..
